Declassif	ied in Part -	Sanitized Copy	Approved for	Release	2012/05/21	: CIA-RI	DP83-004	15R0106000	40005-4

Work is being done by military units under supervision of military and civilian engineers and technicians.

ment from VALJEVO	en infantry regiment from	50X1-HUM
POZEGA ; and t	he 120th Mt. Inf. Regiment from RASKA	50X1-HUM
<b>; -</b> ar	d some Labor Battalions that were	50X1-HUM
recruited from various parts of Y	UGOSLAVIA. Overall strength was	
4-5,000 men.		
This has a constant of the six of the	rracks quarters when they arrive.	

Completed structures:

- 20 reinforced-concrete structures having the following characteristics:
  - length: approx. 40 meters.
  - width: 12

Declassified in Part - Sanitized Copy Approved for Release 2012/05/21 : CIA-RDP83-00415R010600040005-4 **1. S. OFFICIALS ONLY** 

- height: 10-12 meters.

## SECRET Security Information

- flat roof.

Large windows on both sides; each building has an overhead crane track.

- 15 reinforce	ed concrete buildings that vary in size:		
	- length: from 15 to 20 meters.		
	- width: from 5 to 6 meters.		
	- height: from 2 to 3 meters.		
	- flat roof.		
	These buildings have no windows and have only or	e door.	
	Each installation is equipped with an electric s	afety	
	device to el	iminate	50X1-HUM
	hazards resulting from short circuits.		
	these plants will be used for dr	ying	50X1-HUM

- 10 square, reinforced concrete structures:

gunpowder.

- length: from 10 to 15 meters.
- width: from 10 to 15 meters.
- height: about 15 meters.
- flat roof.

These buildings have no windows. Each has an electric safety

device.

Thickness of the walls ovaries from 20 to 40 centimeters.

Declassified in Part - Sanitized Copy Approved for Release 2012/05/21 : CIA-RDP83-00415R010600040005-4

Security Information

- 3 office buildings:

U. S. OFFICIALS until

- one 5-story building approx. 10 x 10 meters.
- two 3-story buildings that are considerably smaller.

### Factory area:

The factory covers an estimated 2 kilometer x 500 meter area.

### Spur track.

About 4 kilometers EAST of POZEGA a 7-kilometer spur track connects the narrow-gauge POZEGA-CACAK railroad with the factory.

The spur track is only used for transporting building materials.

A small RR station called KATROVACKA STIENA has been constructed at the point where the spur track joins the main line.

The spur track and the station were constructed by the labor units.

50X1-HUM

### COMMENT:

the RR station at KATROVACKA STIENA

is shown on 1950-51 maps of YUGOSLAVIA.

### Electric Plant.

A tunnel is being excavated in the side of a mountain for a thermo-electric that will furnish electricity for the factory. The mountain is west of the industrial complex.

### Machinery.

### U. S. OFFICIALS ONLY

About two months after con	disa struction started, crated, m	ssembled achinery began	
to arrive.	lathes, milling cutters,	drilling machines,	50X1-HUM
etc.			
Most of the machinery is se	econd-hand	equipment.	50X1-HUM
The machinery is overhauled, gra	adually re-assembled put i	n a warehouse	
and earmarked for the various in	nstallations that are being	constructed.	
The overhauling and assemble	ling is done in a workshop	that is poorly	
equipped. The work is slow.			
it is diffi	cult to give an estimate or	f the amount	50X1-HUM
of machinery since the crates an	e piled-up indiscriminately	out in the	e e e e e e e e e e e e e e e e e e e
open for a long time.			
Quarters for the workers - the h	otel.		
About 1 kilometer SOUTH of the	factory, quarters for the wo	orker <b>s</b> consist	• .
of:			
- 20 3-story houses varying i	n size from 20 🛥 25 meters	; in length	
$x + 8 \Rightarrow 10$ meters in width.			
- a 3-story hotel, approx. 4	$0 \times 15$ meters .		
INSPECTION.			
From May to September in 19	50 the construction work wa	s inspected	
many times by generals from BELG			

U. S. OFFICIALS ONLY

Generals IVAN GOSNIAK and KOCA POPOVIC made one such inspection.

Pay.

During the 3 years that the course lasted, 50 pupils were dismissed for scholastic deficency and indifference. At the end of the 3-year course a written and oral examination was given on the four subjects considered the most important:

Slovene language (written and oral)

mathematics (written and oral)

railroad equipment (oral)

use of tools and equipment (oral)

Subjects taught at the school. Fourteen subjects were taught at

the school

50X1-HUM

Slovene, Croat, and Serb languages

applied mechanics

practical work on machinery

equipment

drafting

elements of electricity

mathematics

physics (elementary course)

railroad materiel

work planning and organizing

physical culture

premilitary training.

### <u>Schedule:</u>

4 hours daily of theory

4 hours daily of practice

### Premilitary training:

4 hour weekly

Weapon: Mauser rifle
